Waste Oil Heaters That Burn Hot & Save Money

CE-250 «

WASTE OIL FURNACE

COST-EFFECTIVE HEAT FOR LARGER SPACES

Our CE-250 Waste Oil Furnace is an eco-friendly furnace that's been designed to inexpensively heat large spaces.

Featuring our patent-pending design advances plus up to 245,000 BTUs of heat output, the CE-250 is a powerful yet cost-effective way to heat warehouses, garages and other large spaces. Best of all, by turning used motor oil into free heat, it's as eco-friendly as it is cost-effective.

Included with the furnace:

- ✓ Stainless steel heat exchanger
- ✓ Preassembled metering pump
- ✓ Clean Energy burner
- ✓ Direct drive blower w/ 1hp motor
- ✓ Inline oil filter w/gauge
- ✓ Barometric damper
- ✓ Digital wall thermostat

Acceptable fuel: used crankcase oil, transmission fluids, hydraulic oil, #2 heating oil (diesel fuel) and most synthetic oils.

Features:

- ✓ High-velocity, stainless steel, air swept heat exchanger
- ✓ Vertical, stainless steel flue tubes
- ✓ Over-center latches on clean-out doors
- ✓ Left or right side chimney outlets
- ✓ Tank, wall or ceiling mountable
- ✓ 1000+ hour cleaning interval
- ✓ 10-year warranty on heat exchanger
- ✓ 2-Year Warranty On Parts
- ✓ Made in the USA

Specifications:

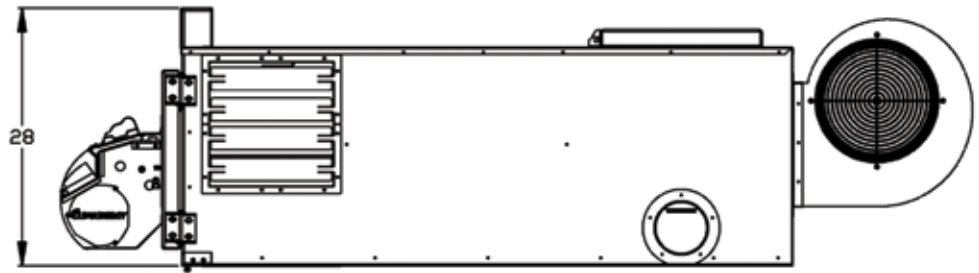

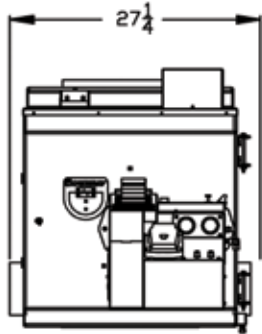

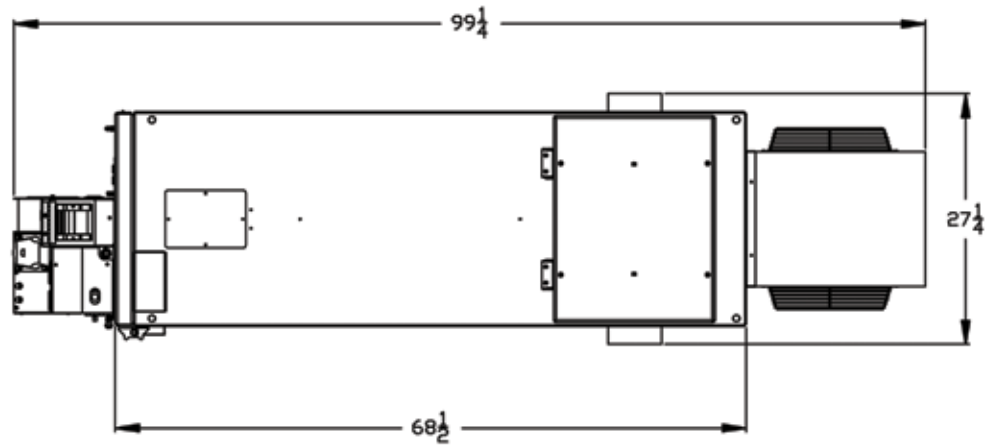

- ✓ 245,000 BTU/hour input
- ✓ 1.7 GPH max fuel consumption
- ✓ 2,400/90° F air flow output CFM/heat rise
- ✓ 115 VAC, 60 Hz, single phase, 30-amp breaker
- ✓ UL and cUL Listed
- ✓ 6" diameter stack outlet
- ✓ Hanging weight 515 lbs.
