

# CE-140 WASTE OIL FURNACE

## **BIG COST SAVINGS IN A SMALL PACKAGE**

***Our CE-140 Waste Oil Furnace is an economical way to get started creating free heat for your facility.***

Thanks to a small footprint, an innovative design and up to 140,000 BTUs of heat output, this furnace is the perfect choice for heating smaller spaces. Best of all, with a low purchase price, it's guaranteed to generate return on investment (ROI) in addition to clean, safe heat.

### **INNOVATIVE FEATURES:**

- » Stainless steel heat exchanger for long-lasting durability
- » High-velocity, air-swept heat exchanger for more heating power
- » Vertical flue tubes resist deterioration & last longer
- » Easily opens for service & cleaning without tools
- » Unique design for longer interval between cleanings
- » Electronic burner control that starts every time
- » Fast ROI from reduced or eliminated heating bills

Acceptable fuel: used crankcase oil, transmission fluids, hydraulic oil, #2 heating oil, diesel fuel, most synthetic oils, or any mixture of these fuels

### **SPECIFICATIONS:**

- » 140,000 BTU/hour input
- » 1.0 GPH max fuel consumption
- » 1,700/75° F air flow output CFM/heat rise
- » 115 VAC, 60 Hz, single phase, 20-amp breaker
- » UL and cUL Listed
- » Left or right side chimney outlets
- » 6" diameter stack outlet
- » Tank, wall or ceiling mountable
- » Hanging weight 430 lbs.
- » 1000+ hour cleaning interval
- » Over-center latches on clean-out doors
- » 12-year warranty on heat exchanger
- » 3-year warranty on parts (with completed warranty registration)
- » See full warranty details on website
- » Made in the USA

### **INCLUDED IN PACKAGE:**

- » Complete waste oil furnace & burner
- » Pre-assembled, tested metering pump
- » Direct drive blower w/ 3/4hp motor
- » Inline oil filter w/gauge
- » Barometric damper
- » Digital wall thermostat
